

# **HOTEL MANAGEMENT SYSTEM**

Empowering Hospitality  
with Smart Digital Solutions

# INTRODUCTION

proudly presents an all-in-one Hotel Management System (HMS) built on Odoo a modular, scalable, and customizable platform tailored for hotels, resorts, and hospitality businesses worldwide.

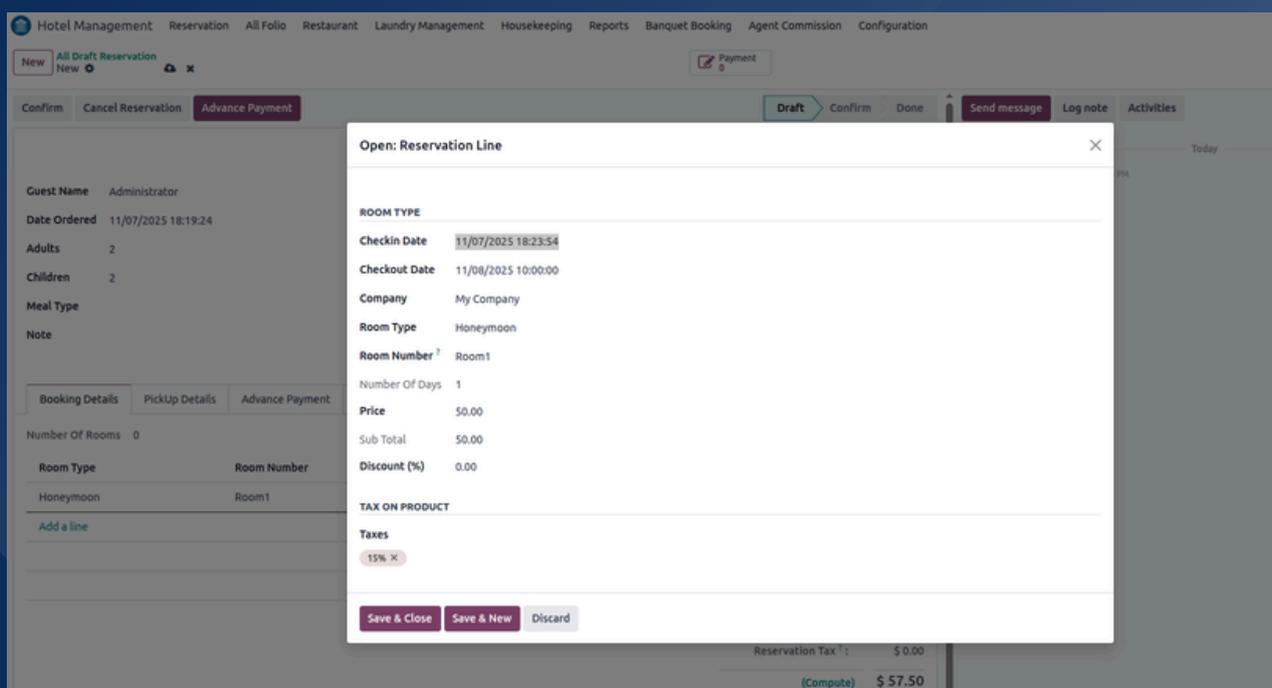

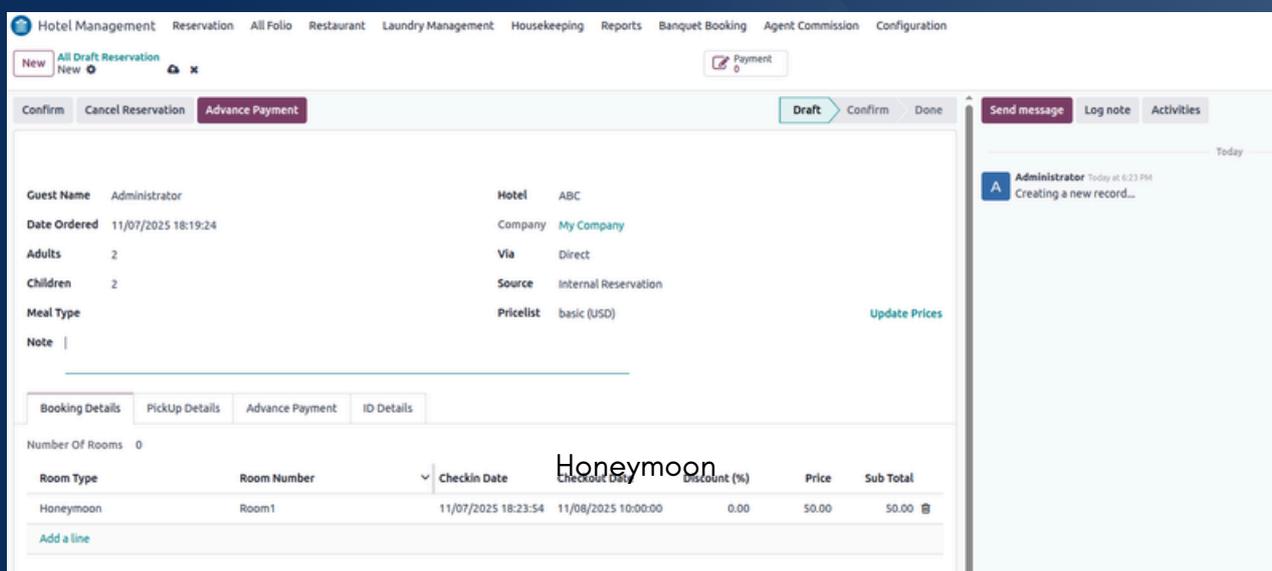

Our system streamlines room booking, housekeeping, restaurant services, invoicing, and guest management into one unified solution. Designed for operational efficiency and superior guest experience, HMS is your all-in-one digital companion for the hospitality industry.

# CORE MODULES & FEATURES

## 1. ROOM & RESERVATION MANAGEMENT

The Hotel Management System provides complete control over room allocation, guest booking, and availability tracking.

# SMART BOOKING INTERFACE

## Real-Time Availability Tracking

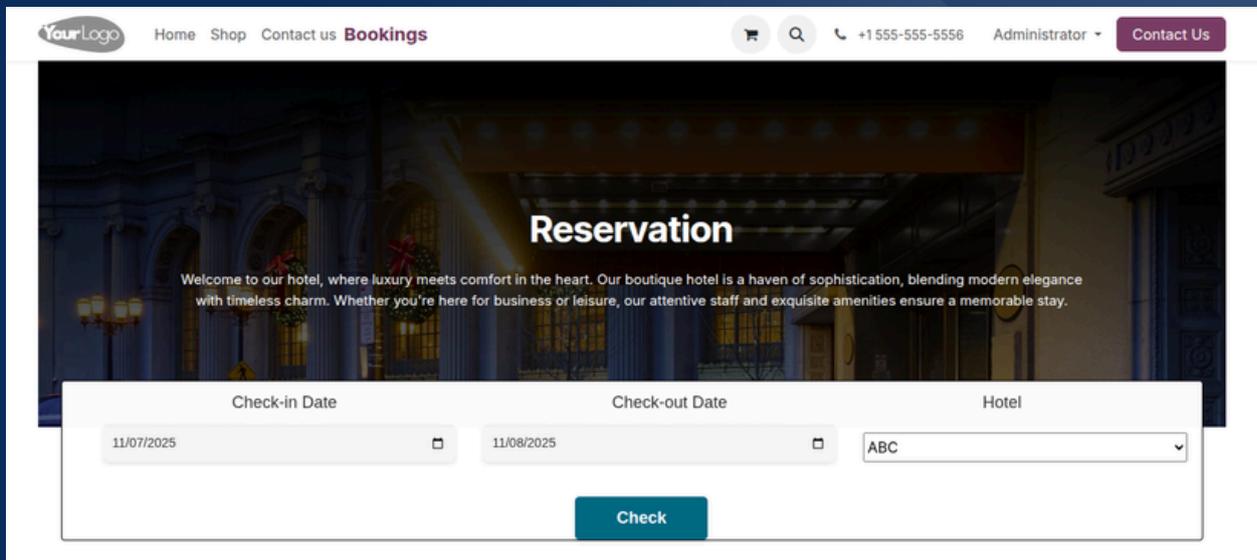

Monitor room status (Available, Reserved, Occupied, Cleaning) instantly through an interactive dashboard.

## Drag-and-Drop Calendar

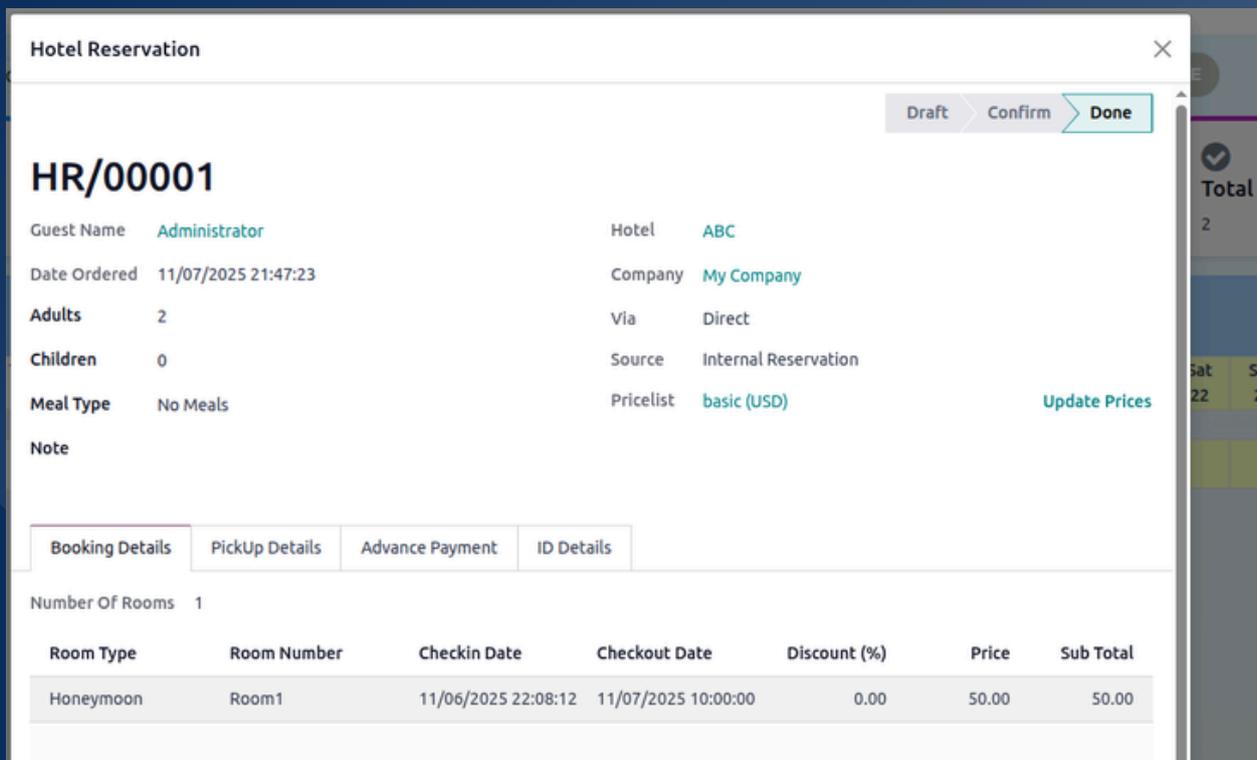

Manage bookings visually using a dynamic calendar view with drag functionality.

## Date & Room Reallocation Flexibility

Easily modify check-in/check-out dates and switch room assignments without data loss.

The screenshot shows a web interface for hotel bookings. At the top, there is a navigation bar with 'YourLogo', 'Home', 'Shop', 'Contact us', and 'Bookings'. On the right, there are icons for a shopping cart, search, and phone (+1 555-555-5556), along with a user profile 'Administrator' and a 'Contact Us' button. The main content area features a large image of a hotel lobby with the heading 'Reservation'. Below the image is a form with three input fields: 'Check-in Date' (11/07/2025), 'Check-out Date' (11/08/2025), and 'Hotel' (ABC). A blue 'Check' button is positioned below the form.

The screenshot displays a detailed reservation confirmation screen titled 'Hotel Reservation'. It includes a status bar with 'Draft', 'Confirm', and 'Done' buttons. The reservation ID 'HR/00001' is prominently displayed. The form is divided into two columns of details: Guest Name (Administrator), Date Ordered (11/07/2025 21:47:23), Adults (2), Children (0), Meal Type (No Meals), Hotel (ABC), Company (My Company), Via (Direct), Source (Internal Reservation), and Pricelist (basic (USD)). A 'Note' field is also present. Below the details, there are four tabs: 'Booking Details', 'PickUp Details', 'Advance Payment', and 'ID Details'. The 'Booking Details' tab is active, showing 'Number Of Rooms' as 1. A table lists the room details:

Room Type	Room Number	Checkin Date	Checkout Date	Discount (%)	Price	Sub Total
Honeymoon	Room1	11/06/2025 22:08:12	11/07/2025 10:00:00	0.00	50.00	50.00

# MULTI-ROOM & MULTI-COMPANY SUPPORT

## Centralized Management

Handle multiple hotels, floors, or branches under a single unified platform.

## Cross-Property Analytics

Access occupancy, revenue, and guest statistics across all your properties.

## Dynamic Pricing Models

Define seasonal, promotional, or weekday/weekend pricing effortlessly.

The screenshot displays the 'Room1' product configuration page in the Hotel Management software. The interface includes a top navigation bar with various modules like Reservation, Restaurant, and Laundry Management. The main content area is divided into sections for 'General Information', 'Booking History', 'Sales', 'Room Amenities', 'Inventory', and 'Accounting'. The 'Room1' product is configured as a 'Goods' type with a sales price of \$50.00 and sales taxes of 15% (totaling \$57.50 including taxes). The product nature is 'Honeymoon', located on the 1st floor, with a maximum of 2 adults and 0 children. A notification on the right indicates that a room inherit was created by the administrator.

The screenshot shows the 'Room Amenities' configuration page for 'Breakfast' in the Hotel Management software. The 'Breakfast' product is configured as a 'Goods' type with a sales price of \$1.00 and sales taxes of 15% (totaling \$1.15 including taxes). The product nature is 'All'. The interface also shows a list of room amenities on the left, including 'Breakfast' and an 'Add a line' button. An 'INTERNAL NOTES' section is visible at the bottom of the configuration window.

# FOLIO & BILLING AUTOMATION

## Automated Folio Creation

Each confirmed booking automatically generates a folio linked to the guest profile.

## Integrated Accounting

Seamlessly connect bookings with invoices, taxes, and payment workflows.

## Transparent Costing

Track service fees, taxes, and add-ons per booking with real-time updates.

The screenshot displays a hotel management software interface. At the top, there is a navigation menu with options like 'Hotel Management', 'Reservation', 'All Folio', 'Restaurant', 'Laundry Management', 'Housekeeping', 'Reports', 'Banquet Booking', 'Agent Commission', and 'Configuration'. Below the menu, there is a 'New Hotel Folio' button with the ID 'S00001'. The main content area is titled 'S00001/HR/00001' and has tabs for 'Folio', 'Other Data', 'ID Details', 'Advance Payment', 'Transfer Invoice Details', 'History', and 'Table Reservations'. The 'Folio' tab is active, showing details for 'Guest Name: Administrator', 'Invoice Address: Administrator', 'Delivery Address: Administrator', and 'Note'. Below this, there is a 'ROOM LINES' table with columns: Description, Status, Check In, Check Out, Room No, Category, Quantity, Currency, Rent(UOM), Rent, and Su. A single row is visible for 'Room1' with a rent of \$50.00. Below the room lines is a 'SERVICE LINES' table with columns: Description, Order Status, Product, Category, Quantity, Currency, Unit Price, and Subtotal. At the bottom, there is a 'POS ORDER ENTRIES' table with columns: Order Ref, Session, Date, Receipt Number, Payments, Customer, Currency, Employee, Payment, and Total. A single entry is visible for 'Bakery Shop...' with a total of \$13.80. On the right side of the interface, there is a 'Check Out' button and a 'Send message' button. Below these, there is a 'Log note' and 'Activities' section. The 'Activities' section shows a list of actions performed by an administrator, including 'Progress -> Check Out (Status)', 'Sales Order -> Progress (Status)', '\$57.50 -> \$71.30 (Total)', '\$50.00 -> \$62.00 (Untaxed Amount)', 'Quotation -> Sales Order (Status)', and 'Hotel Folio Inherit Adding POS ORDER TABS created'.

## 2. GUEST MANAGEMENT

HMS ensures a personalized experience for every guest through detailed profiling and intelligent communication.

# LOYALTY PROGRAMS & MEMBERSHIPS

## Tiered Reward Systems

Create membership levels with exclusive benefits for loyal guests.

## Auto-Discount Mechanism

Automatically apply loyalty-based discounts or offers during invoicing.

## Performance Analytics

Generate loyalty reports to evaluate customer retention trends.

The screenshot displays the Odoo POS interface. At the top, there is a search bar and a user profile for 'Administrator'. The main area shows a list of products under 'Breads' and 'Pastries' categories. The product list includes:

- Apple Pie (1.00 x \$13.80 / Units) - \$13.80
- Rye Bread (1.00 x \$4.60 / Units) - \$4.60

The total amount is \$18.40, including taxes of \$2.40. Below the product list is a grid of product images with their names and quantities:

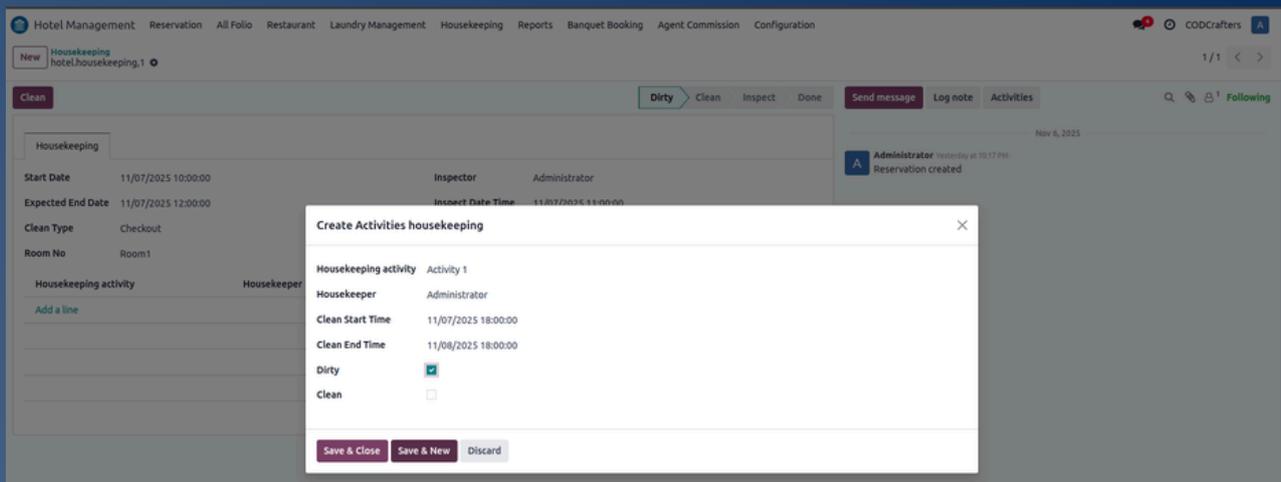

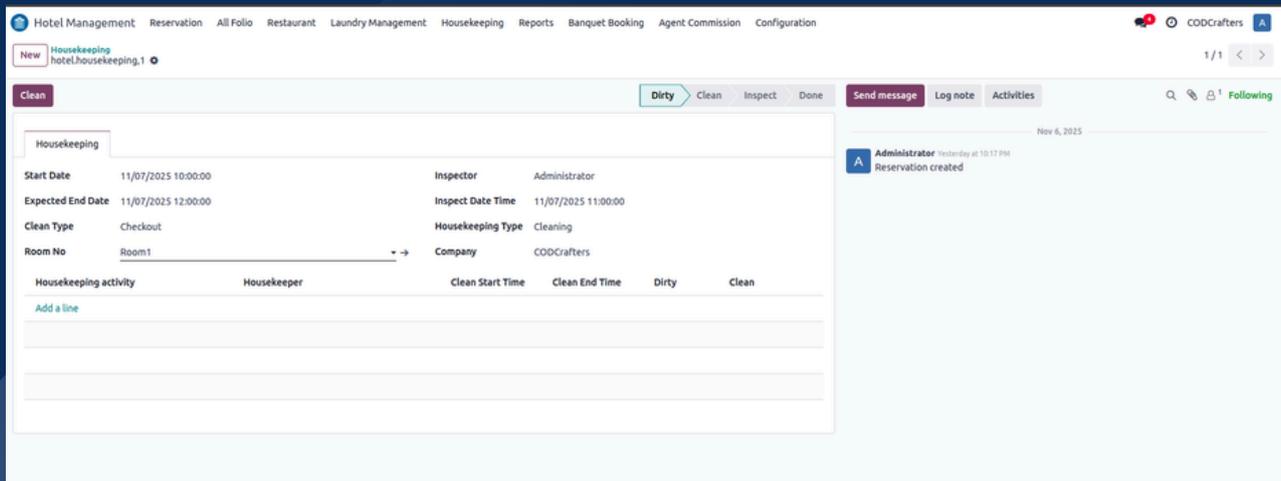

- Apple Pie (1)
- Bagel
- Blueberry Muffin
- Butter Croissant
- Cheese Croissant
- Cherry Pie
- Cinnamon Roll
- Multigrain Bread
- Pain au Chocolat
- Pecan Pie
- Rye Bread (1)
- Sourdough Loaf
- Tiger white loaf
- Wholemeal loaf

At the bottom, there is a payment summary table with columns for Customer, Internal Note, and Actions. The table has a 'Payment' button at the bottom.

# 3. HOUSEKEEPING

Streamline room cleaning operations and maintain service quality with automated housekeeping controls.

# REAL-TIME ROOM STATUS DASHBOARD

## Centralized Monitoring

Track cleaning progress across all rooms and floors.

## Supervisor Validation

Enable supervisors to approve room status post-cleaning.

The screenshot displays a 'Hotel Reservation' dashboard. A modal window titled 'Hotel Reservation' is open, showing details for reservation 'HR/00001'. The modal includes fields for Guest Name (Administrator), Date Ordered (11/07/2025 21:47:23), Adults (2), Children (0), Meal Type (No Meals), Hotel (ABC), Company (CODCrafters), Via (Direct), Source (Internal Reservation), and Pricelist (basic (USD)). There is an 'Update Prices' link. Below the details is a table for 'Number Of Rooms' with one row: Room Type: Honeymoon, Room Number: Room1, Checkin Date: 11/06/2025 22:08:12, Checkout Date: 11/07/2025 10:00:00, Discount (%): 0.00, Price: 50.00, Sub Total: 50.00. At the bottom of the modal, there is a 'Save' button and a 'Discard' button. The background dashboard shows a calendar for November and a 'Total Reservations' section.

The screenshot displays a 'Hotel Reservation' modal window overlaid on a 'Hotel Dashboard'. The modal is titled 'Open: Reservation Line' and contains the following details:

- ROOM TYPE**
- Checkin Date:** 11/06/2025 22:08:12
- Checkout Date:** 11/07/2025 10:00:00
- Company:** COOCrafters
- Room Type:** Honeymoon
- Room Number:** Room1
- Number Of Days:** 1
- Price:** 50.00
- Sub Total:** 50.00
- Discount (%):** 0.00

Below these details, there is a section for 'TAX ON PRODUCT' with a 'Taxes' sub-section showing a rate of 15%. At the bottom of the modal, there are 'Close', 'Save', and 'Discard' buttons. The background dashboard shows a calendar for November and a 'Total Reservations' summary.

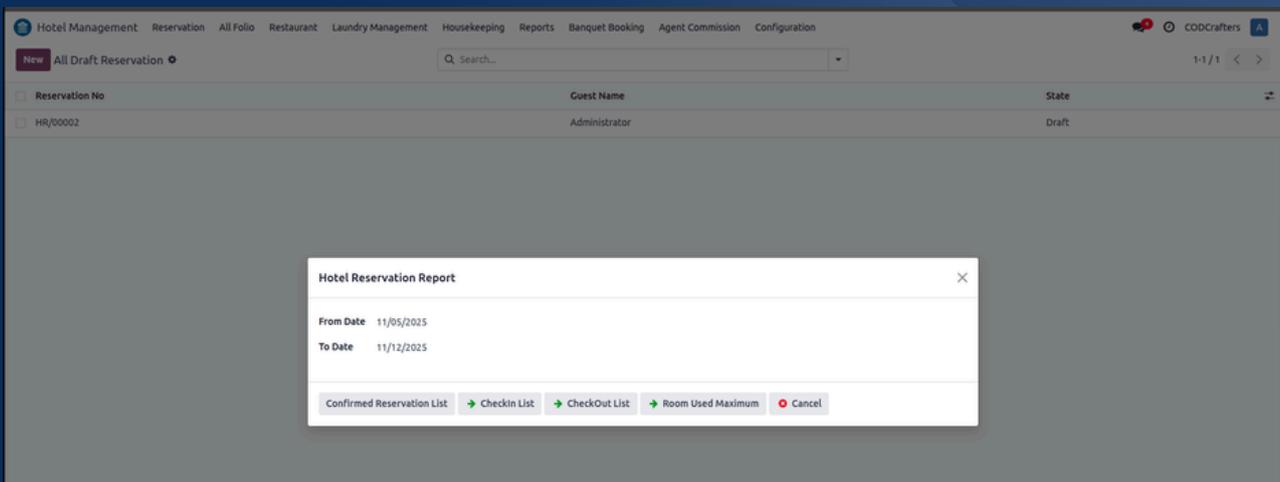

# REPORTING & INSPECTION

## Performance Insights

Generate daily reports on completed versus pending cleaning tasks.

## Quality Control Audits

Supervisors can log remarks and corrective actions directly in the system.

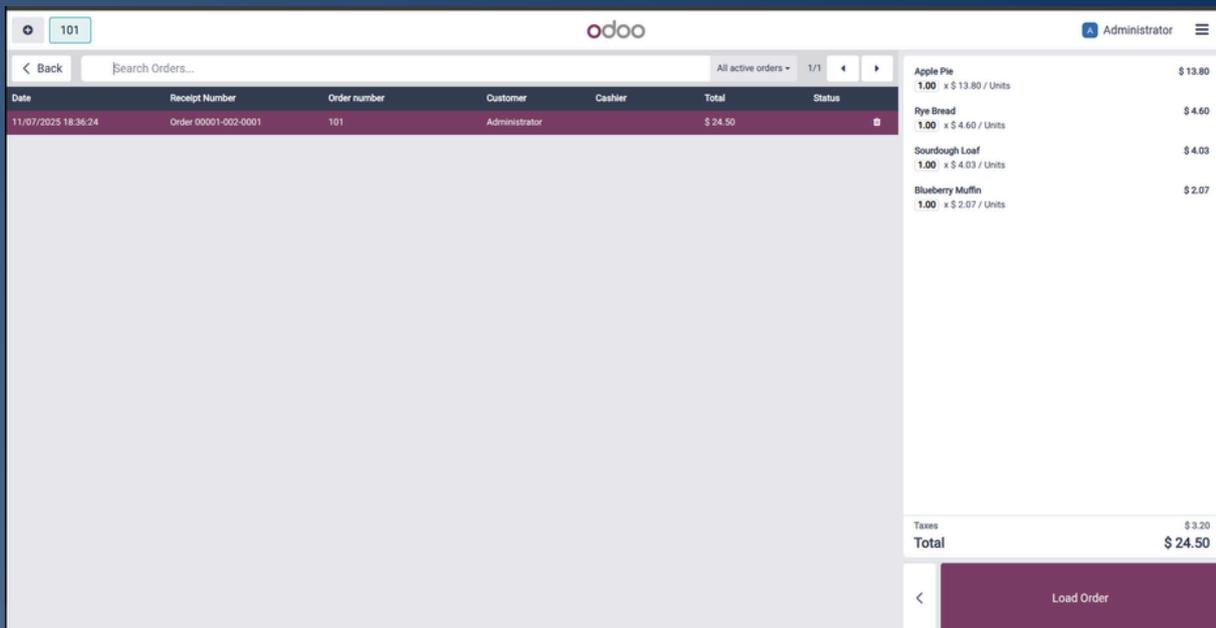

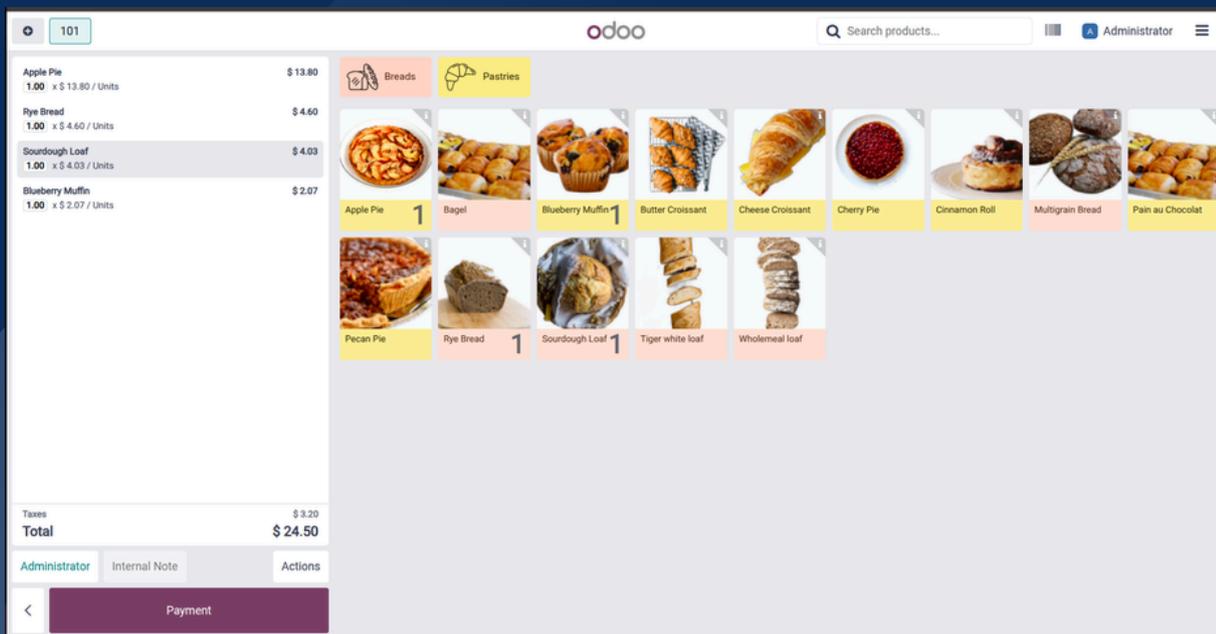

The screenshot shows a Microsoft Excel spreadsheet with the following data:

Reservation No.	Guest Name	Check In	Check Out	Room Type	Room No
HR/00001	Administrator	2025-11-06	2025-11-07	Honeymoon	Room1

# 4. RESTAURANT & POS INTEGRATION

A complete solution for restaurant, cafe, and bar management, directly connected with room billing.

# MENU & ORDER MANAGEMENT

## Digital Menu Setup

Create categorized menus for food, beverages, and special offers.

## Kitchen Order Tracking (KOT)

Manage real-time kitchen tickets for dine-in and room service orders.

## POS Synchronization

Integrate POS systems for billing and inventory management.

The screenshot displays a software interface for order management. The main content area shows a sales order for 'Room1' with a total amount of \$57.50. The order details include customer information, invoice address, and delivery address. The order lines table shows one line item for 'Room1' with a quantity of 1.00 and a unit price of 50.00. The total amount is \$57.50, including a 15% tax of \$7.50. The interface also features a navigation menu, a search bar, and a sidebar with various options like 'Send message', 'Log note', and 'Activities'.

Product	Quantity	Delivered	Invoiced	Unit Price	Taxes	Amount
Room1	1.00	0.00	1.00	50.00	15%	\$ 50.00

Terms & Conditions: <https://test-hotel-module.odoo.com/terms>

Untaxed Amount: \$ 50.00  
Tax 15%: \$ 7.50  
Total: \$ 57.50

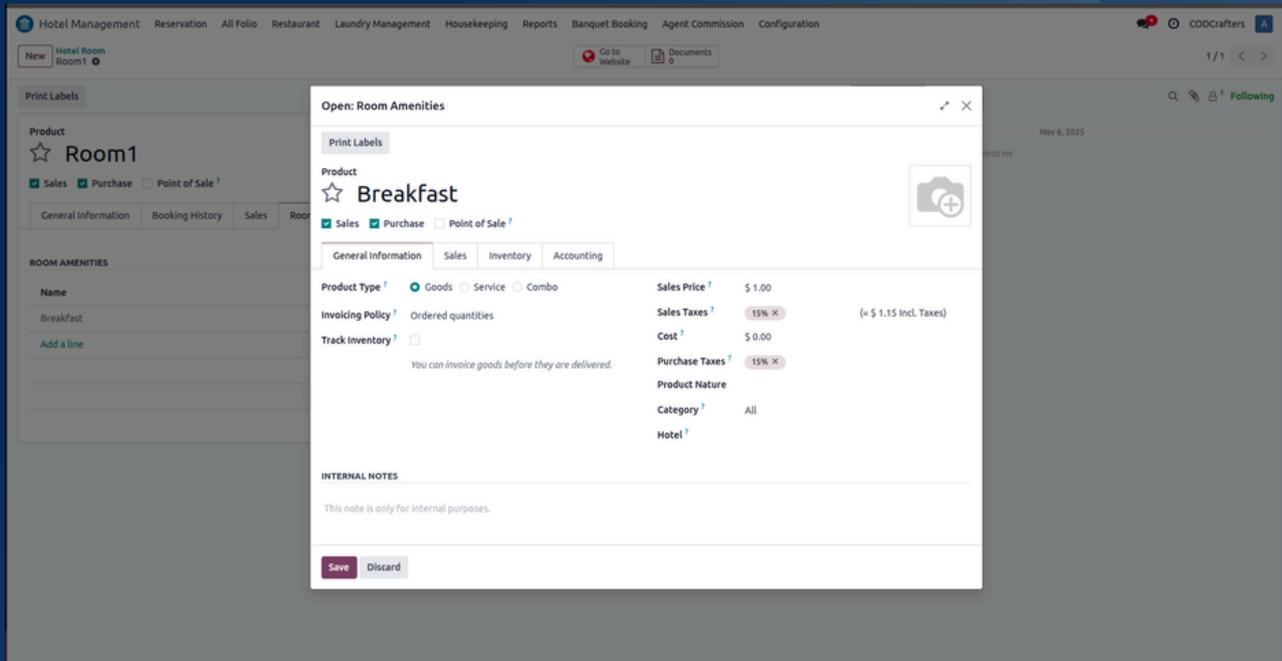

# ROOM SERVICE INTEGRATION

## Direct Room Posting

Automatically add restaurant bills to guest folios.

## Delivery Tracking

Monitor in-room service orders and staff delivery times.

# MULTI-POS & BILLING CONTROL

## Multi-Outlet Management

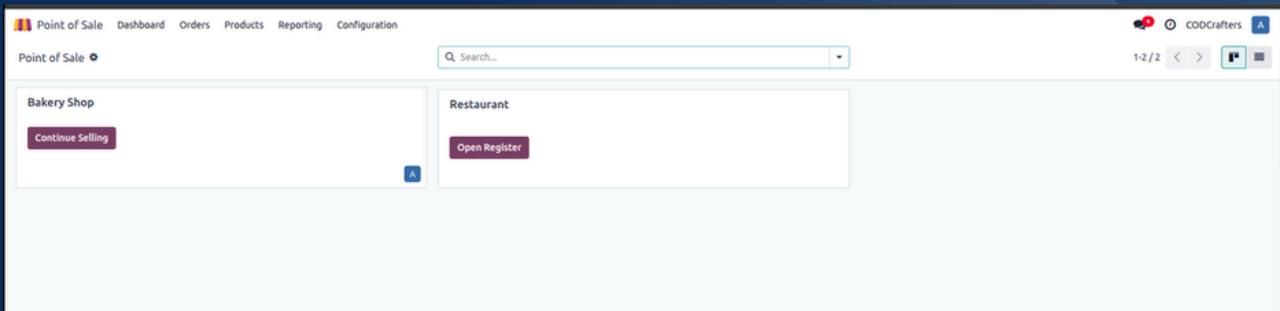

Operate multiple restaurants or bars under one hotel.

## Centralized Reports

Get consolidated restaurant performance and revenue data.

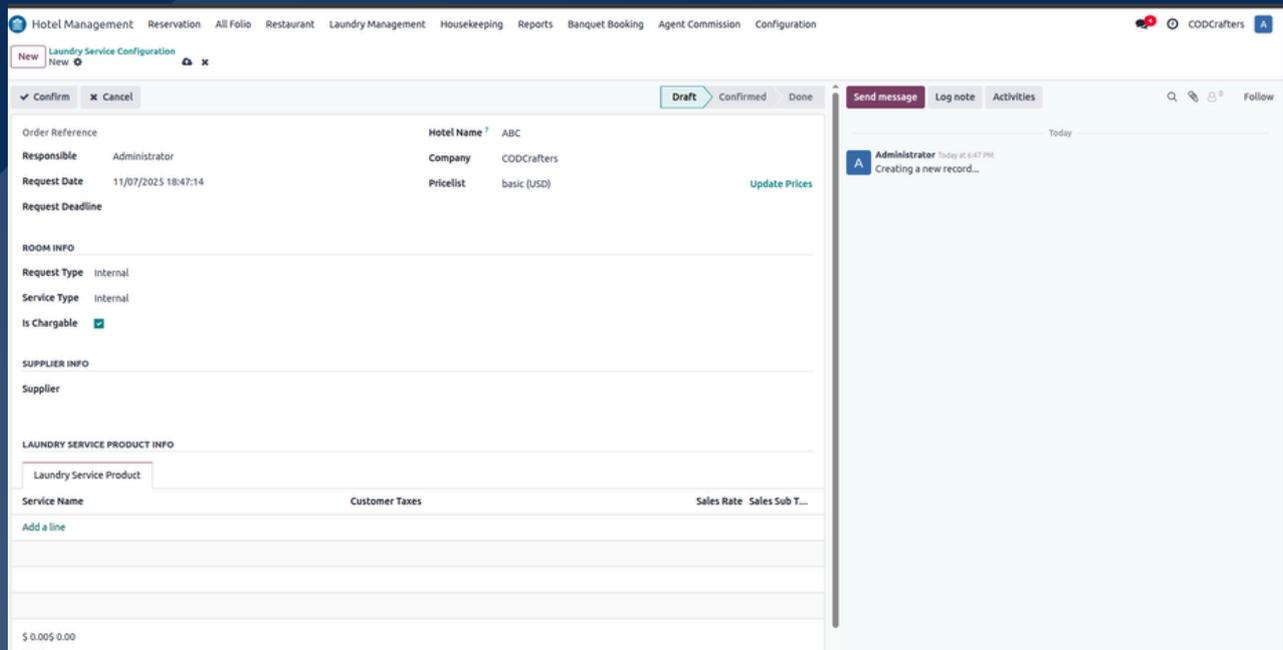

## Automatic Tax Application

Ensure correct tax handling based on service type and outlet.

# 5. LAUNDRY & ADDITIONAL SERVICES

Manage all extra guest services efficiently with transparent tracking and automated billing.

# SERVICE CATEGORY MANAGEMENT

## Categorized Offerings

Define Laundry, Spa, Gym, Transport, or Tour packages with individual pricing.

## Resource Allocation

Assign staff or departments to specific service types.

The screenshot displays a web application interface for managing service categories. The breadcrumb trail at the top includes: Hotel Management, Reservation, All Follo, Restaurant, Laundry Management, Housekeeping, Reports, Banquet Booking, Agent Commission, and Configuration. The user is logged in as CODCrafters. The current page is titled 'New Service Type Book'. The form contains the following fields and values:

- Name:** Book
- Parent Category:** (empty)
- Is Service Type:**
- Company:** CODCrafters
- ACCOUNT PROPERTIES:**
  - Income Account:** 400000 Product Sales
  - Expense Account:** 600000 Expenses

# SERVICE REQUEST TRACKING

## Real-Time Monitoring

View current, pending, and completed service statuses.

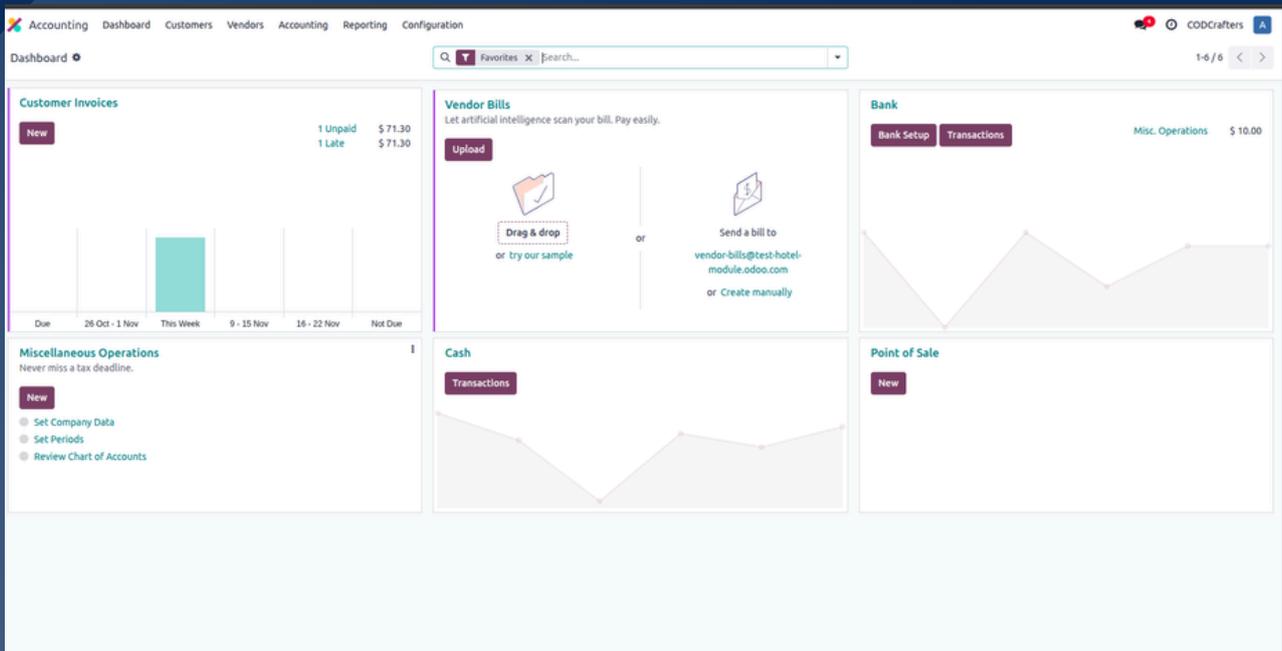

## Guest Notifications

Notify guests automatically when services are ready or complete.

The screenshot displays a web-based hotel management system interface. At the top, a navigation menu includes 'Hotel Management', 'Reservation', 'All Folio', 'Restaurant', 'Laundry Management', 'Housekeeping', 'Reports', 'Banquet Booking', 'Agent Commission', and 'Configuration'. The user is logged in as 'CODCrafters'. The main content area is titled 'Product Laundry rooms' and includes tabs for 'General Information', 'Sales', 'Inventory', and 'Accounting'. The 'OPERATIONS' section shows 'Routes' with a 'Manufacture' checkbox and a 'View Diagram' link. The 'LOGISTICS' section displays fields for 'Weight' (0.00 kg), 'Volume' (0.00 m³), 'Customer Lead Time' (0 days), 'HS Code', and 'Origin of Goods'. The 'COUNTERPART LOCATIONS' section includes 'Production Location' (Virtual Locations/Production) and 'Inventory Location' (Virtual Locations/Inventory adjustment). The 'DESCRIPTION FOR RECEIPTS' and 'DESCRIPTION FOR DELIVERY ORDERS' sections provide instructions for adding notes to orders. A right-hand sidebar shows a notification from 'Administrator' dated 'Nov 6, 2025' stating 'Hotel Services and its charges created'. The interface also features a 'Print Labels' button, a 'Send message' button, and a 'Log note' button.

# 6. ACCOUNTING & INVOICING

It ensures automated billing, accurate reporting, and effortless revenue tracking across departments. From room folios to restaurant services every transaction is recorded and synchronized in real time.

# AUTOMATED INVOICE GENERATION

## Seamless Booking Integration

Invoices are generated automatically upon booking confirmation.

## Tax & Discount Inclusion

Apply local taxes, service charges, and discount codes.

## Advance & Partial Payments

Handle deposits and balance settlements effortlessly.
